Battle For It All Cracked 2022 Latest Version™ is a free to play Battle Royale game featuring procedural maps for a unique Battle Experience. I want to confirm that the "Battle For It All Activation Code" is the beta version, there's no need to open your beta key just because you own a already purchased Battle For It All Full Crack. Click to expand... That's what I understood, but now I'm not sure As the one who created the topic, I got some feedback and an idea, so maybe this information will help you, or be able to solve your issue. OP: So there is a way to get a key to the beta, if you already bought the game Click to expand... So the OP got a key from a private party. Result: There was nobody telling the OP that there were only 100 keys available. So the OP had no idea if he'd get a key, as it was not advertised to the community, nor was it public at all. So this brings me to a point, the OP didn't "get lucky", he got the key from a private party. Click to expand... This is the OP reply. This shows how OP is willing to help some people, even though he's not a part of the BFIA community. I hope this helps you. I apologise for the long post, but all this info came from a video. -- There's no point in asking the developers for keys. Click to expand... Many people rely on giveaways to get into beta. I'm sure you did, but that's why there's a chance you won't get one. As much as I'd love to help, I can't say anything. Just keep in mind BFIA is different from open beta games in the sense it is still ongoing. So there is a way to get a key to the beta, if you already bought the game Click to expand... So the OP got a key from a private party. Result: There was nobody telling the OP that there were only 100 keys available. So the OP had no idea if he'd get a key, as it was not
